# ...addressing pressing multi-sectoral issues

## One vision - 3 strategic orientations - 19 dispositions

### Fundamental Orientation 1: Govern and preserve

| | |
|---|---|
| **D1.1** | Develop knowledge of water resources and the environment |
| **D1.2** | Monitor the quantity and quality of water resources |
| **D1.3** | Strengthen the skills and capacities of water management stakeholders |
| **D1.4** | Strengthen the institutional framework for integrated water resource management |
| **D1.5** | Strengthen legal and regulatory frameworks to enable sustainable development of water resources |
| **D1.6** | Promote transboundary cooperation on water resources |
| **D1.7** | Support research and dissemination of knowledge around sectors enhancing water resources |

### Fundamental Orientation 2: Open up and protect

| | |
|---|---|
| **D2.1** | Develop essential services in a safe and sustainable manner by raising awareness of environmental and health issues |
| **D2.2** | Open up dans interconnect basins |
| **D2.3** | Develop hydropower and ensure basin connectivity |
| **D2.4** | Protect ecosystems from the impact of human activity |
| **D2.5** | Enhance rich ecosystems |

### Fundamental Orientation 3: Develop sustainably

| | |
|---|---|
| **D3.1** | Develop agriculture while limiting impact on the environment |
| **D3.2** | Sustainable development of the livestock and fisheries sectors |
| **D3.3** | Improve market access and develop value chains to foster economic development opportunities |
| **D3.4** | Improve the resilience of the population and combat poverty in a sustainable way |
| **D3.5** | Promote sustainable mining and handicrafts |
| **D3.6** | Limit adverse impacts on natural resources |
| **D3.7** | Raise awareness to involve local people in actions to promote sustainable management |

*"The OMVG area, a common area for sustainable development through integrated management of water resources and protection of associated ecosystems, for the improvement of living conditions and the prosperity of the populations by 2040."*
